TROPICO INTER-URBAN SEENTINL

OFFICIAL PAPER OF THE CITY

Subscription, $1.00 per year.

Advertising rates furnished on application. The Value of the Tropico Interurban Sentinel as an advertising medium is obvious when its field at the head of the San Fernando Valley is considered. The nature of the paper, the character of its subscribers and the class of advertising it carries tell the whole story.

According to Washington reports, the President's mail is bulky with letters from all parts of the country praying for relief from the exhorbitant prices charged for food and other necessaries. An embargo on exports is the common demand. To that he is unalterably opposed but he is uncertain what to suggest in substitution, though he considers it the most serious issue facing the American people. Meanwhile, housewives in various parts of the United States are boycotting eggs, poultry, butter and other commodities with some success, in the effort to bring down prices artificially inflated. Investigations made by government agents indicate that in most instances there has been no increase in the cost of production which offers any justification for the great advance. In paper for instance, 43 cents per ton is said to represent the increased cost of production, yet the price of the cheapest news is three times the figure quoted before the war. In some cases conspiracies and munipulations of middlemen are responsible for an inexcusable advance which is not shared by the producer. The Los Angeles fish market is cited as an instance. San Pedro fishermen, it is said, have been paid but 1½ cents per pound for their catch and forbidden to retail on their own account by a syndicate of buyers, who have boosted the price to consumers to 15 cents. If this condition of affairs exists, the municipal fish market which has been proposed for Los Angeles, where the fisherman can sell his catch at a price which will afford him a reasonable return and the buyer a fair deal, would seem to be an excellent check upon this sort of extortion. Would it not be possible for the scope of the work of the County Sealer of Weights and Measures to be so enlarged that he could investigate and report upon the price paid the producer and the price charged the consumer with a view to an equitable adjustment or an understanding of the cause of a high price? With the United States at peace and the productive capacity of our country unimpaired, there is no reason why the cost of living should double as it has done in the past eighteen months.

Now is the season of the bazaar. Two of these picturesque forms of merchandizing have successfully gathered in coveted funds from the sale of fancy work, preserves and candy and two more events of the same sort are on the calendar. From the stand-point of the economist it is a round-about and expensive method of securing the money because the same persons who donate the work and the materials commonly have to buy them back and thus give twice. But when we consider that recreation is usually but another form of work, and that life is a grand swap from beginning to end, it isn't quite so illogical. The bazaar represents the maximum of work and the maximum of participation. The money is merely the prize which gives zest to the competition.

The all-star vaudeville to be given at the Palace Grand, Dec. 8th, under the auspices of the Elks Lodge, promises to be one of the finest entertainments ever given in that city. Members of the Lasky Company will present "The Critic, or the Tragedy Rehearsed" by Richard Brinsley Sheridan, which will be given at the Mason Opera House December 11th.

SICK WIFE'S STORY SURPRISES TROPICO

The following has surprised Tropico: A business man's wife suffered from dyspepsia and constipation for years. Although she dieted she was so bloated her clothers would not fit. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-ika relieved her INSTANTLY. Because Adler-ika empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has QUICKEST action of anything we ever sold.—Edwin Virden.

THE SCHOOL BONDS

Mr. Irving Oliver, president of the Board of Trustees of the Tropico Public Schools, was not prepared to state definitely, when interviewed by the Sentinel, just what the action of the Board would be relative to calling an election to vote bonds for the improvement of the Cerritos school. He expressed the opinion, however, that the public would demand the improvement and that the election would be called. The school house is a valuable piece of property and he believes the citizens will consider it poor economy to allow the building to deteriorate for the lack of a protecting coat of paint, and also bad citizenship to tolerate unsatisfactory plumbing in a public school when it can be remedied at a comparatively trifling cost.

ACACIA SCHOOL BAZAAR

Officers of the Acacia Mother's club assert that this year's bazaar was not equal to last year's in point of attendance but the criticism seemed unjustified to the Sentinel's representative, who found the rooms packed and the sale counters so crowded with purchasers it was difficult to buy. By four-thirty all the tag ends of stock and the special prizes had been auctioned off and the treasury of the club held receipts aggregating about $58.00 which appeared to be on excellent return for the investment of time, labor and contributions. A grafonola or victrola is desired and the money may be used for that purpose.

PYTHIAN SISTER ELECTION

Last Friday evening the Phythian Sisters held their last meeting in the hall on San Fernando Road. It was their annual election and officers were chosen as follows:

Dora L. Howe, M. E. C.; Amy Miller, E. S.; Pearl S. Rittenhouse, E. J.; Elizabeth Haynes, Mgr.; Alma Minter, Pro.; Blanche Shea, G. O. T.; Susie Peck, M. O. F.; Margaret R. Coleman, M. R. and C.; Mrs. Tine Hammond, P. C.

Mr. Landon Haynes was initiated into membership with the usual ceremonies.

Tropico received a hurry-up call from San Fernando Sunday for help in handling a gang of I. W W.'s who had broken into a car there and whom the authorities wished to round-up and take into custody. Several auto loads of men responded and eight of the offenders were arrested and lodged in the Los Angeles jail. They are supposed to be a remnant of the band which made trouble at Saugus.

HOME PRODUCTS LUNCHEON

Club women of Southern California responded with enthusiasm to the invitation of the Los Angeles Chamber of Commerce to attend a high noon "California" luncheon at the Alexandria, Monday, in honor of Mrs. A. L. Bancroft and her co-workers in the effort to increase the home market for local products. When the two hundred representative club officials assembled in the banquet hall, they found at each place a capacious market basket filled with samples of the products made in Los Angeles, and great was the curiosity as to what was packed away beneath the green and white covers.

It was a Los Angeles product banquet even to the paper in the menu card. There were six courses and all delicious. When about half over, curtains screening the rear of the hall were drawn aside and exhibits of many sorts were revealed, among other things phonographs and ukeleles of local make which furnished music for the entertainment of the diners after a fine orchestra had completed its repertorie.

When the coffee cups had been pushed aside at the close of the feast, the first speech of the afternoon was made by John S. Mitchell, President of the Chamber, who explained the object of the meeting, to invoke the aid of women in fostering the growing manufacturing and consuming of home products. He reviewed the long and growing list of products made here, showed how valuable to the manufacturer is the home market and how largely it is now supplied by imported goods. He eloquently pictured how that trade would help the manufacturers and California if it could be kept at home and how it would furnish employment to thousands of workers.

Mr. Arthur Kinney followed with statistics to hammer in the arguments of Mr. Mitchell.

Mrs. Ashton, who is a member of a special promotion committee, made practical suggestions in a brief speech in which she told her hosts it is not enough to tell women to buy California products, they must furnish the names of manufacturers and of brands and also give prices so the housewife can order intelligently. If local factories would undersell the eastern products she thought it would do much to win trade.

Mrs. Seward Simon drove the suggestion home and protested against the injustice of selling California raisins or prunes at New York prices.

Mrs. Willoughby Rodman appealed to State pride and to local sentiment to press the campaign.

Edwin F. Trefz, of Washington, who has been added to the Chamber Staff, made a brief but effective talk. Mrs. Craig endorsed Mrs. Simon and declared the quality of local products must equal that of imported goods with a more favorable price.

Miss Rand, in a fetching apron and cap of plaid gingham, was introduced as the girl who started the "Sassy Jane" models with a capital of $5.00, the venture having developed within the year into a factory employing fifteen girls.

Mrs. A. L. Bancroft, who has been the wheel horse of the movement, was called for and acknowledged the call amid a storm of applause, but refused to make a speech. Tropico guests included Mrs. Leigh Bancroft, Mrs. Charles Wallace Kimberly, Mrs. Charles Barker and the Sentinel's representative.

It was a delightful affair which reflected credit upon Mr. Wiggins and his fellow officers in the Los Angeles Chamber and it will do much for the cause it aimed to promote because every woman who carried home her souvenir basket will think California products and boost California products from now on.

TWIN CITY K. P.'s

No meeting was held by the K. P.'s last week. Their new hall is now ready and the transfer of the furnishings from the San Fernando quarters to the new temple has been effected. Thursday evening of the present week the twin lodges will meet for their ordinary business meeting and the following Friday the new hall will be formally opened with a dance. J. J. Burke is chairman of the committee of arrangements, his assistants being Geo. J. Tauxe, Noble Ripley, Fred Deal and Floyd Kenney.

Bread fell to 11 cents in Tropico Saturday and it is reported that the majority of Los Angeles bakers have returned to the 10c price for large loaves. Milk, on which a 12 cents a quart raise was announced, may suffer the same fate.

SUNRISE SERVICE

Sixty-five souls, young, middle-aged and old, beat the sun in the ascent of Tropico Hill Thanksgiving morning. Unlike some of its recent predecessors, it was a glorious dawn which filled the worshipers with enthusiasm. One family brought its breakfast along and made a camp fire by the way.

The prayer service began about seven o'clock. It was inspiring and well repaid the pilgrims.

The regular meeting of the Chamber of Commerce will be held Thursday evening, December 14th in the City Hall.

IVANHOE BRIDGE

Those who have worked to secure the Ivanhoe bridge across the Los Angeles river and thus provide a more direct route from Tropico to the business district of Los Angeles, are rejoicing over the prospect of a realization of their hopes. The County Supervisors have appropriated $5000 as promised which sum will be available January 4th when a decision will be rendered in the friendly suit with the Richardson Estate to secure deed to a right of way for a bulkhead. Engineers are now engaged on plans and profiles and as soon as these have reached a point where an estimate of cost can be made, the Los Angeles City council will make an appropriation for the balance of the funds needed. It is estimated that by March 15th work can be begun on the structure.

MRS. FORD RELEASED

Mrs. Ford, wife of Don Ford, pastor of the First Methodist church of Tropico, who has been at the point of death for weeks, was released from her sufferings Wednesday morning about dawn. The Sentinel was not able to learn full particulars before going to press, but ascertained that funeral services will be held at the church Friday afternoon at 2 o'clock.

Those who best knew Mrs. Ford pronounced her a woman of wonderful abilities and a great inspiration and help to her husband when in health.

Her loss will be keenly felt by a large circle of friends who deeply sympathize with Mr. Ford and his family in their bereavement.

DEATH OF JOHN B. SEYMOUR

John B. Seymour, a veteran of the Civil War, 72 years of age, who has been a resident of Tropico for a number of years, died of heart trouble after a brief illness, Monday morning about dawn. He had never united with the N. P. Banks Post but was making arrangements to do so when stricken. He is survived by a widow who is alone except for close friends who reside with her. Neither she nor Mr. Seymour had relatives in California. She will probably continue to reside in her home on Cypress near Glendale avenue. Funeral services were conducted by Rev. Goodsill at the undertaking parlors of Scovern Letton & Frey Tuesday afternoon, interment being made in Forest Lawn cemetery where the local post had charge of the services at the grave.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

SCHOOL NEEDS

Dr. Mabry has expressed the opinion that the renovation of the Cerritos school could be effected for $3000 and that the money should be voted. The building is badly in need of paint and will deteriorate fast if it does not have attention. He does not favor the most expensive plumbing for the reason that the building is old and does not justify the expenditure of any more money than is necessary to furnish good, average quality such as would be provided for the average modern home. He is quite urgent also about provision for drinking fountains on the first and second floors and in the school yard. Under present conditions pupils have to go to the basement to get a drink. These fountains, he declares, can be provided at small expense.

BIRD HOUSES

Mrs. Nanno Woods and Mrs. H. C. Ackrley of the Glendale Garden Society devoted the best part of last week to the Bird House Contest, the first of its kind on the Pacific Coast, according to Mrs. Woods, who is much pleased with the success of this one. Sixty-eight houses were entered, eighteen of which came from Tropico, and of the eighteen two were entered by girls. But one girl in Glendale had the enterprise to compete with the boys. The prizes will be bestowed next Thursday evening at the Third street school in Glendale where Prof. Alfred Cookman, head of the Study Department of the Los Angeles Boy Scouts will give a talk and Felice Jung, the whistler, will give bird songs.

Of the twelve prizes offered Tropico boys captured four and all Tropico entries were very attractive. The winners were: Earl Jordan, first in 8th grade; Arthur Eyraud, third in 8th; Colbert Eyraud, third in 6th; Lloyd B. Knapp ,third in 5th.

Other Tropico contestants were: Walter Hibbert, Cornelius Chandler, Paul Fruling, Ruby Stone, Louisa Benoist, Bernice Adams, Eugene Boring, Robert Searle, Yataro Yanana, Joseph Eyraud, Melvin Lawyer, Herbert Charles Jardin, Donald Tyler, Kenneth Small.

A good many housese were sold, Norton Wells of Tropico buying two Tropico products and one Glendale house.

DEATH OF MRS. WHALEY

Mr. H. L. Whaley has just suffered the loss of his mother, Mrs. Annie M. Whaley, under peculiarly afflicting circumstances. A week ago Saturday she fell in her own house in Los Angeles and broke her hip. Just how the accident occured she herself could not tell, but the shock and complications arising from the injury led to her death Thursday. She was seventy-five years of age. Funeral services were held Saturday afternoon.

OAK DRIVE TROUBLES

The Sentinel for some time has been hearing reports of drunken rows at a certain residence which have been very annoying to neighbors on Oak Drive. The Tropico police force has come in for criticism in this connection, but when the facts were run down it was found that the disturbing elements are old offenders against whom none of the neighbors is willing to swear out a complaint, because no one "wants to be mixed up in it." For that reason it has been impossible to take legal action to abate the trouble, as the officer cannot remain on duty there indefinitely, having other territory to guard, and when he has gone in response to summons, the trouble has always been over with nothing in sight to justify arrest without a formal complaint being lodged. Such was the case when the nightwatchman was called up before daybreak Sunday. Unless Oak Drive residents are willing to do their duty as citizens, he will probably continue to make fruitless journeys to the scene of disturbance.

THE POULTRY SHOW

When the Sentinel's representative visited the Poultry Show and saw the sort of an exhibit the Glendale-Tropico Association could get together, she did not wonder at President Royce's enthusiasm in promoting it. Quality and numbers considered, it was the best show she ever visited and she has attended some big ones. Nearly all of the exhibits were simply splendid. Some very distinguished birds were entered, for instance the White Orphington hen who won first prize at the Panama Exposition.

What was declared by the judges to be the best display of Rose Comb bantams ever seen on the coast was made by Dr. Irving Royce, whose fancy cockerel won the prize offered for the best bird in the show and also the Glendale cup. Fanciers are trying to persuade him to send the bird to New York. The doctor is an originator of breeds which he develops in both large and small sizes. His Bluettes are very beautiful in coloring and he has attractive novelties in Royce's Ravens and Patriot Bantams. His Partridge Rocks secured a good many premiums.

Tropico did herself proud. Mr. Irving Oliver and Mrs. M. Rose showed the big, handsome Speckled Sussex breed, Mr. Oliver winning first and second on cockerel, first on cock and hen; third on pullet; Mrs. Rose taking first and second on pullet and third on cockerel. Mr. Oliver also exhibited Silver Campines, winning first premiums for cock, cockerel, hen and pullet.

J. J. Alexander of Acacia street won the blue with a Buff Orpington cock and a red with a White Orpington hen.

William Cullingsworth of Dunbarton steet secured first, second and third on Blue Minorca pullets.

H. L. Gill of North Glendale avenue captured first with a wonderful Barred Rock cockerel and pullet pen; first on pullet, first and second on cockerel, first and second on hen, first and second on cock, C. W. Angier of Tropico winning second on pullet and third on hen.

To Ellen B. Churchill of Blanche avenue, went first, second and third on Rhode Island Red pullets.

Mrs. George Becker's Muscovy duck and drake won first prizes.

E. A. Watson of Moore avenue was given second on Ancona cock.

Messrs. Harold Walthew, president of the Poultry Association of Southern California, and R. B. Moore of Oakland, did the judging with apparent satisfaction to all concerned. At the conclusion of their task, a banquet was given in their honor at the Easton Cafe which was attended by officers, exhibitors, and Glendale city officials. It was followed by brief but very excellent after-dinner speeches by the guests of honor and by Dr. Royce, Mr. Galpin of Eagle Rock, Mr. Gill of Tropico, Mr. Elliott of North Glendale, Mr. Galpin, Mr. Watson, City Manager, Mr. Cowan of Glendale, Dr Duncan of Tropico, Mr. Batty, Secretary of the local association, Mr. Ross, Secretary of the Poultry Breeders' Association, Mrs. Ross, Edgar McDonald, Mr. Colby, and Mr. Alexander.

SOME STUNT

Mr. and Mrs. Easton of Glendale demonstrated the metal of which they are made when they moved into their new hotel and cafe quarters on Brand Boulevard Wednesday evening and the day following served Thanksgiving dinners to more than four hundred persons. It was some stunt, and they are not rested yet, though they feel more settled. They have now a very commodious and attractive establishment and a big business in sight.

A Christmas market for the benefit of the building fund of the Holy Family church will be held Friday and Saturday at the Masonic Temple in Glendale. Gifts and refreshments will be sold and prizes will be given away each evening donated by manufacturing concerns.

BAZAAR POSTPONED

On account of the death of the pastor's wife, the Methodist Church bazaar which was to have been held December 7th, has been postponed to Tuesday, December 12th. It will be held in the Flower Building, 115 San Fernando Road.

Disputes over the interpretation of the Adamson law may lead to the railway strike it was intended to avert.

Have you noticed the exciting contest now on at the B & B Store?

NATURAL HISTORY

Efficiency Expert—A name given to an interesting bird that builds it nest in the cosy corner of a cash register. The nest consists of long green fiberous materials—usually fives, tens, and twenties. There are several varieties but most of them are found in the United States. They are growing in numbers but none has been found in Bad Axe, Michigan. The adult bird is estimated at 200 pounds. They are more numerous in factory towns than in rural districts. The head is large and blunt. The snout long and pointed. The eyes are close together, projecting and bright. They sit and think for long periods. Occasionally one is discovered under a steam boiler or revolving on a flywheel. They have been known to become imprisoned in packing cases. Occasionally one is shot. It is a migratory bird and seldom stays long in one place. It is voracious in its habits and lives upon turkey, escallons, planked steaks, and charlotte rouge. Though it consumes a great variety of foods it subsists mostly on nuts. For pictures of its Egg, see Birds, Color Plate—Eggs.
